

Sunday - May 23

Today, we dedicated our new church. It is a beautiful structure & one of the most inspirational buildings I have seen. We have something to be very proud & grateful for in the fact that we have had a small part in creating this magnificent church.

Minnie & Nonnie came up for it and seemed to enjoy it very much. We went to our regular service at 11:00 & there were 800 people there. The music was outstanding - particularly the "Sanctus". Bill ~~made~~ made arrangements with Mrs. Down for a dinner at the Tea House. Nell, Buzz, Kay, Nonnie, Minnie, Monty, Ann & the four you were there. At 3:00 we went to the dedication service. It was long but it was interesting. Bill, Alice & Gigi came up. John got lost in the crowd looking for Bill & was found by some stranger who blocks down the street. He said that he was looking for the car. Scared us to death. Then we went to the baptismal service at 7:30. Ann ~~was~~ <sup>was</sup> & Mark Wassinski were baptised. It was a lovely service & very moving when Paul baptised Mark. All in all it was a very satisfactory & interesting day.

Monday - May 24.

The main thing that happened today was that Jackie's glasses got hit in the explosion by a rock that I give him a tetanus shot. He cried up until I gave him a shot of novocaine before he received the shot. He was a "big boy" & did not cry even at the shot. Bill brought home the suture & thread that I used & we have all examined it thoroughly.

David made a pretty big decision today. He gave up going to the Sunday Party given by Henry Dryden so that he could study & catch up with his library for music lesson. He came home with a blue star & felt very proud.
